

## **Grand Rounds: Abnormal Liver Enzymes**

## **Faculty**

Eric Martin, M.D. Medical Director of Living Donor Liver Transplant Assistant Professor of Clinical Medicine Division of Hematology University of Miami, Miller school of Medicine

## **TUESDAY, OCTOBER 23, 2018**

7:00 - 7:30 A.M. Registration and Breakfast

7:30 - 8:30 a.m Lecture

Dawson Theater Boca Raton Regional Hospital

<u>Identified Need:</u> The goal of this activity is to provide interdisciplinary medical education in the hospital setting to address gaps in knowledge, performance and competency as identified by the peer review process.

Expected Outcome: Enhanced healthcare provider knowledge and skills that modify participant's behavior to improve the quality of patient care.

Objectives: At the end of these presentations, the participant should be able to:

- 1. Identify the components of the liver biochemistry profile and understand their meaning if abnormal
- 2. Identify and understand the significance of the true liver function test "LFTs"
- 3. Develop a differential diagnosis for abnormal liver biochemistries, including AST and/or ALT >1000
- 4. Follow an organized approach to workupcases of abnormal liver biochemistries

Target Audience: All Physicians, FAU Faculty, Residents, Medical Students, Nurses and other health care professionals

Boca Raton Regional Hospital fully intends to comply with the legal requirements of the ADA. If you should need a special accommodation for this event, please call (561) 955-4088 at least two weeks prior to the presentation date in order to receive service.
